

The most powerful leaders are often those who do powerful things quietly. Heidi Damjanovich has just finished recording her first album, called Love Me, ALL songs with a powerful message addressing the challenges that so many face. Heidi wrote all of the songs. This album has great instrumentalists and is beautifully recorded. Heidi's work is extra special to me because she was a student teacher in the school district where I supervised the fine arts, and later I hired her. Her work as a teacher is second to none. She is kids first yet a master musician. This album follows suit as a people-first album with great musical performance. Go to YouTube and subscribe to Heidi's page to hear all of her songs. In the meantime, enjoy Drive Home!
